## **Report on fire mock drill conducted in ESIC Hospital, Bikaner (Rajasthan) on 19/11/2024**

A fire mock drill was organized on 19/11/2024 in ESIC Hospital, Bikaner under the guidance of Medical Superintendent Dr. S R Meena.

Fire mock drill was conducted by the trained firemen posted in ESIC Hospital, Bikaner and all regular and contractual staff including all security guards attended the fire mock drill.

The firemen demonstrated the use of foam fire extinguisher for normal fire in woods, cardboards, doors, windows etc. Firemen also demonstrated method of use of carbon dioxide fire extinguisher for electrical fire.

Firemen displayed use of water hose pipes to extinguish the fire on the front facade of the building. All the staff participated in the mock drill and learnt various methods of extinguishing fire. They were also told that in case of fire electricity is to be disconnected and they are supposed to use stairs and ramp. Fire exit plans were also shown to the staff which are displayed at various locations in the hospital. The use of neon sign boards and fire sign boards were also discussed.

Staff were appraised about the disaster management plan in the Hospital.

At the end of the fire mock drill Medical Superintendent Dr. S R Meena addressed all the staff and advised about various steps to be taken in case of fire.
